Meeting Tonight

So Grayling hopes to do something about educating its people should disaster strike.

There will be a first aid training course that evening, and we hope to have all local firemen present and anyone who has had training in first aid or disaster training is invited and urged to come and give us a hand.

It might mean life to you or your loved ones. It can happen in Grayling so let's be prepared.

Balanced Budget  
Favored By Majority

An overwhelming majority of residents of the Tenth Congressional District who answered personal letters of inquiry from Congressman E. A. Cederberg said they thought the Federal Budget should be balanced before taxes are cut, the Congressman revealed this week. He said:

"Over 80 percent of the replies which I received in response to my personal letters to those persons whose names were selected at random from telephone directories, expressed the opinion we should first balance the Budget and then reduce taxes."

"Among the remaining 20 percent there were only two or three letters favoring a tax reduction irrespective of the status of the Budget and the others reflected varying ideas such as balancing the budget and reducing taxes at the same time or proposing greater individual exemptions instead of a cut-in income tax rates."

"The letters reflect a growing concern over our national debt and a conviction on the part of those who wrote me that it is time we take steps to curb the practice of spending more than we take in."

"At the moment it is not possible to forecast the outcome of the legislative tax program outlined by President Eisenhower. There are still too many people in this country who favor economy so long as the appropriation for their own project is untouched. This is one of the greatest obstacles in our attempts to balance the Budget. Balancing the Budget after 20 years of spending is no easy job at best."

Local Postal Rate Changes To  
Be Effective July First

With the advancement of the Grayling Post Office to the first class category, effective July 1st, 1953, the following changes will be of interest to the patrons.

With the advancement to first class, which raises the box rentals about 25%, and the Postal Order of May 21, 1953, adding an additional 50% the new rates will be:

Box	Former Rate	New Rate
No. 1	60c per qt.	\$1.10 per qt.
No. 2	75c per qt.	\$1.50 per qt.
No. 3	\$1.00 per qt.	\$2.25 per qt.

The Assistant Postmaster General, in issuing the order raising the rates, stressed the fact that this was the first change in basic rates since 1907.

Of interest to local patrons, will be the restrictions on receiving and sending parcel post between first-class post offices.

Chapter III, Article 133 of the Post Office Manual, reads as follows:

(a) Parcels mailed at a first-class post office for delivery at another first-class post office (in the continental United States only):

(1) Limit of weight, 40 pounds local, first and second zones; 20 pounds, third through eight zones.

(2) Limit of size, 7 inches length and girth combined.

(b) Parcels mailed at, or addressed for delivery to, any second-class, third-class, fourth-class, or fifth-class post office, or mailed to or from any Army, Air Force or Fleet Post Office, or to or from any Territory or possession of the United States, including the Canal Zone and Trust Territory of the Pacific Islands:

(1) Limit of weight, 70 pounds

(2) Limit of size, 100 inches length and girth combined.

In measuring a parcel the greatest distance in a straight line between the ends (but not around the parcel) is taken as the length, while the distance around the parcel at its thickest part is taken as its girth.

As a result of these parcel post restrictions, it will be necessary to refuse the acceptance of certain parcels at the window. A current list of first-class post offices will be available at the post office.

## Grass Roots Opinion . . .

**CAMERON, WIS., BARRON COUNTY LEADER:** "This newspaper favors a decrease in taxes (which can be effected by cutting the fat from government); an end to all forms of socialism in this republic; an American foreign policy based on common sense rather than dollar diplomacy; and a re-dedication to that fundamental American concept, 'that nation is best governed which is least governed.'"

**COATESVILLE, PA., RECORD:** "Despite dire predictions from some prophets of gloom, the lifting of ceilings was not accompanied by skyrocketing prices and an upward churning of the inflationary spiral. The wholesale price level has stayed virtually unchanged and consumer prices are continuing downward."

**AZTEC, N. MEX., INDEPENDENT-REVIEW:** "It may be contended that Communism hasn't gotten very far in this country but it hasn't hurt the communist cause to have people think the government should supply us with everything we want."

**LAKE WORTH, FLA., HERALD:** "The era of citizens living off public funds came into being during the past two decades, it has been a popular sport for many and sundry to climb onto the public feed wagon and not even bother about not letting their feet drag."

**FRANKLIN, IND., REPUBLICAN:** "...virtually all college administrators are leery of wider government aid, feeling that inevitably it will mean federal control of education."

## In Grayling 23 Years Ago

Interesting Items of News  
Gathered From the Files of  
the Avalanche of 23  
Years Ago.

June 19, 1930

The community was shocked Saturday when the news spread around that Ernst John, age 46, well known Beaver Creek farmer, had been found dead in his garage. An autopsy performed by Dr. Clippert proved he had died of poison, presumably by his own hands. Mr. John was known to everyone as "Hone at John."

First Grayling High School Alumni meeting was one in which the Senior Class of 1930 issued invitations to all former graduates and their families, teachers and members of Board of Education. The banquet was served at Michelson Memorial Church. Don Reynolds very capably acted as toastmaster. An association was formed with Carl Doroh, president and Ingeborg Hanson, secretary.

Teachers for next year are: Russell Burns, Supt.; LaVere Cushman, principal; Rosalin Lewis, science; Josephine Nichols, Latin and French; Gerald Poor history; Ella McAllister, music and; Eva Dorr, commercial; Norine Berry, English; Claire Jacques English and Debating; Evelyn Thieme, domestic art; Louise Hodgman, 6th grade; Margaret Douglas, 5th grade; Vella Herman and Frances Hewens, 4th grade; Mildred Granger, 3rd grade; Olga Everard, 2nd grade; Margaret Tyvia and Hazel Cassidy, 1st grade; Iva Tapio, kindergarten.

The winners in the "Who's Who in Grayling" feature published by the Avalanche were Clara Atkinson and Eva Swanson.

## Railroaders to the Rescue— A New York Central Tradition

1. THIS IS THE DIKE TRAIN. Conductor Hotchkiss thought it up. A volunteer New York Central crew manned it. And from its mercy tour of old Dutch towns in the Hudson and Harlem Valleys, it gathered thousands of dollars for Holland flood victims... adding to your Railroad's tradition of helpfulness.

3. FIGHTING TO SAVE FORESTS. Last year's dry autumn caused many fires in the Adirondack forests. Time and again, New York Central's specially equipped Fire Trains sped to the rescue. Manned by trained railroad volunteers, they helped the Forestry Service halt the devastation.

4. BUT EVERYDAY HELPFULNESS is the usual job of New York Central railroaders. They carry your products to market and bring you things you need... without cluttering your highways. And they do this vital job all at low cost... in any weather... the year around. For that's the CENTRAL IDEAL!

## County Farmers To Attend Grass Day

Farmers of many varieties from at least 53 Lower Michigan counties will take part during 1953 in the seven Grass Day programs marking the seventh and final Grass Day year.

One thing that almost all of them will share in common is a desire for more grassland farming profits.

Farmers from Crawford County will attend the Grass Day on Wednesday, June 24th in Kalkaska, Mich. It will start at 9:30 a. m. and will be at the Jenkins Brothers farm, located 2 miles south of Kalkaska on road 66 and 2 miles east.

Seeding, fertilizing and management practices will be stressed during morning tours and there also will be discussions and inspections of emergency pasture, special crops and silage. Insect and disease and weed control will be other features. A special feature will be a demonstration on liquid nitrogen and also the erection of an up-right silo.

Farm equipment displays and machinery operation will be very worthwhile for farmers to see, points out Robert G. White, Michigan State College extension specialist in agriculture engineering. Mr. White, member of the M.S.C. Grass Days Committee, has been contacting the various equipment companies and expects a good turnout. An interesting feature, he notes, will be a wagon complete with cross-conveyor unloader—all automatic, just turn on the power take-off and go sit under a tree.

White expects most machine units to make the tour of all seven Grass Day locations and lists those slated for field demonstration as balers, haycrushers, field choppers—both from the swath and direct, with cutter bar, wagon unloaders and blowers.

Robert's parents, Mr. and Mrs. Clair Smith and his grandmother, Mrs. James McNeven, were in attendance at the exercises.

## Wheat Allotment For New Farms

Farmers on land on which no wheat was seeded for any of the years 1951, 1952 and 1953 may apply for a 1954 wheat acreage allotment, according to Stanley S. Hummel, chairman of the Crawford-Otsego County Production and Marketing Administration Committee. To be considered for an allotment on a farm which had no wheat seeded for any of those years, the farmer must apply in writing to his county PMA committee by June 20, 1953.

Blank application forms are available at the county PMA office for use in filing requests for allotments.

## Heard About the Electric Weather Predictor?

Squint Smith built up quite a reputation last month by predicting the weather. What he said usually came true.

It got so that folks would sit around his little Antique Shop just to get his opinion.

Last Monday, though, he said he didn't know what the weather was going to be like next day. That surprised us and when we asked what happened, Squint said, "Slipped up on my electric bill and was turned off. I'll get to my radio again tomorrow though." Squint had been getting

the weather over the radio—just like anyone else!

From where I sit, that's the way it goes with some "experts." They often don't have any more inside information than you can get for yourself. Like those who "know" cider is the only thirst-quencher after a day's work. For as I'm concerned, I'll take a temperate glass of beer. But—I won't try to "predict" your choice for you.
